

ARIA EXHIBITORS

On behalf of the CES Operations team, welcome to CES 2019. This welcome letter contains contact information for on-site assistance, key show rules and regulations, and other important details about exhibiting at the show.

EXHIBITOR SECURITY GUIDELINES

Exhibitor personnel attending CES will be subject to the same security and safety restrictions and procedures as general attendees with some allowances.

All show attendees will be subject to metal detection upon entry and may only bring two personal bags, each smaller than 12" x 17" x 6", onto official show premises. All bags are subject to search, including personal items. Rolling bags and luggage are not permitted. Beyond this personal bag restriction, exhibitor personnel will be permitted to bring product and display materials, hand-carried or on wheels, onto CES show premises. This equipment will be subject to search and then tagged as approved for entry. Please visit [CES.tech/security](https://ces.tech/security) for further information.

CES APP

The CES 2019 App features the exhibitor list, full conference and event schedule, wayfinding, speaker list and important show information. Visit [CES.tech/App](https://ces.tech/App) or search "CES 2019" in your app store. New this year, you may contact CES Security or venue security through the CES App in the Security section.

EXHIBITOR HOTLINE

The Exhibitor Hotline is also available if you need a quick answer or are looking for someone to help. Call us anytime at 702-943-4074 during show hours during move-in, show days or move out.

C SPACE EXHIBIT HOURS

Tuesday, January 8	9 AM - 5 PM
Wednesday, January 9	9 AM - 5 PM
Thursday, January 10	9 AM - 5 PM
Friday, January 11	CLOSED

EXHIBITOR-APPOINTED CONTRACTORS (EACs)

EAC workers and supervisors must display an official EAC wristband in order to access the show floor.

Wristbands may be picked up near the check-in desk by the dock entrance at ARIA from January 6-11. Only EAC supervisors who were listed as primary contacts during EAC registration are permitted to pick up and sign for all wristbands.

SECURITY

CES provides general perimeter security. Exhibitors are responsible for maintaining the security of their booth contents. Do not leave valuables or equipment that can be hand carried.

C SPACE STORYTELLERS STAGE

C Space Storytellers conference sessions will be located in the Mariposa Ballroom on the built-in stage alongside our exhibit floor. Please refer to CES.tech or the CES app for more information.

SHUTTLE SERVICE

A full schedule of our complimentary shuttle service can be found [CES.tech/shuttle](https://ces.tech/shuttle) and includes details on hotel shuttles, the Tech Express, the C Space Shuttle and outbound airport shuttle service.

PERSONAL MOBILITY DEVICES

Personal mobility devices (with or without motors) are not permitted at any CES venue. This includes hoverboards, skateboards, uniwheels and all similar products.

BEACON TECHNOLOGY

The CES 2019 App will offer 3D mapping functionality. Beginning January 5, representatives from our beacon and mobile app vendors, Right Round and Eventbase, will be placing beacons all around the show venues and throughout the exhibit space. This will include placement on some booth structures on the show floor. The beacons are the size of a quarter and will not interfere or damage any part of the booths. The beacon technology will allow attendees to navigate the show floor. This will be a benefit to exhibitors; ensuring attendees get to the booths they want to see, including your booth. If you have any questions or concerns, please reach out to your floor manager on-site.
